

Stewart Warner Fuel Pump

Distributed by EN-GEN INT'L Pte Ltd

Electric Pumps (Made in USA):

Pumps assure quick starts, eliminate surging, flooding, and starving.

All pumps assure battery-saving quick starts by delivering gas via the instant ignition switch when it is turned on.

The **82050 series** is a powerful piston type pump which brings solid state reliability to fuel pumps. One moving part. Built in filters eliminate the need for other filters in line: Micro carbon filter dissipates water; Magnetic filter traps metallic particles. Gas line connection 1/4" internal PT.

235 series has a built in screen. Gas line connection: 1/8" internal PT. Not to be used with alcohol based fuels.

82050 Series

Part No.:

82050

12V neg. grd. 7psi

82051

12V neg. grd. 5psi

82052

12V pos/neg. grd.

Double insulated 7psi

235series

Part No.:

235A-D

12V pos/neg. grd. 5psi

235B-D

6V pos/neg. grd. 5psi

82050

235A-D

Stewart Warner Fuel Pump
